Our guides showcase the most outstanding companies, brands, services, and events from our dedicated winners, and the impact that they've made in the luxury industry over the last year. Our teams dove into an impressive amount of research to find the best of the best, and we are proud to share and introduce these remarkable companies to you, our valued readers.

Our 1427 winners of 2022, are truly international, representing more than 102 countries and covering the far and wide regions of Africa, Asia, Central America, Eastern Europe, European Union, Middle East, North America, Oceania, South America, and the Caribbean. This collection of inspiring winners are representative of a wide range of industry sectors, including Architects, Interior Designers, Developers and Real Estate Brokers, Hospitality, Food & Beverage, Luxury Goods and Lifestyle.

Riad Mayfez Suites & Spa

Category:

Best Luxury Small Hotel in Morocco

Lush sanctuary, Riad Mayfez Suites & Spa offers the luxury of space and intimacy, in Morocco's spiritual heart and the world's largest car-free urban area.

The porter of the House escorts guests, with his luggage trolley. Guests have to walk the streets, dodge a donkey, walk pass the grocer's, and further down a mosque, before they can at last follow the impressive wall of the Riad Mayfez Suites & Spa. The modest entrance door hides under an arcade. Nothing leaves to the imagination, that a palace stands behind that door.

The place seems like a reminiscence of the palaces of the past, when each refined detail was a tribute to the deliciously nostalgic elegance of a sophisticated lifestyle. XIXth century riad where Moorish style meets an Art Deco Villa, Riad Mayfez Suites & Spa epitomes the very essence and character of Fez, where historical grandeur and lifestyle merge together.

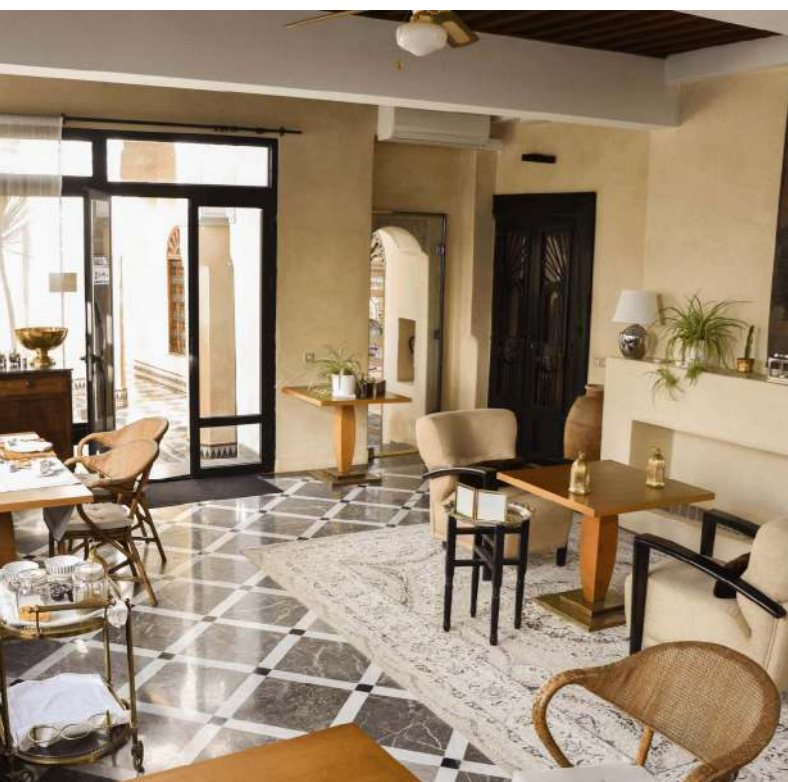

With only seven suites, caring and friendly service, privilege of a spacious terrace, accessible by lift and offering panoramic view of Fez, Riad Mayfez Suites & Spa appears as a true exclusive experience. In a boldly contemporary spirit, the Riad reinvents the city break, with authenticity and a certain sense of nostalgia. Riad Mayfez Suites & Spa creates a world apart, a world in itself, a welcoming retreat in harmony with its environment. A retreat, both classic and playful, serene and intense.

At Riad Mayfez Suites & Spa, the art of welcoming, is led by caring and quality of exchange between the Riad Mayfez Suites & Spa staff and the guests. The riad combines the services of a prestigious hotel, with the benefits of a private property. A butler provides bespoke service, for guests to arrange their stay in the smallest details.

Riad Mayfez Suites & Spa is a family home and a family story. Deeply influenced by experiences gained throughout years of expatriation, currently sharing her time between Morocco and Egypt, Mrs Dominique Laraqui officiates as lady of the house with the strong support from Mrs Houda, house Manager, and to a small team entirely dedicated to the comfort of guests. After six fantastic years in London, she left Riad Mayfez Suites & Spa for her new life in Fez which, of course, could only continue in Riad Mayfez Suites & Spa.

A pun that eventually gave the riad its name, following six years of refurbishment.

Tripwix is a luxury lodging company offering a curated portfolio of personally inspected and accepted homes in Portugal, Barbados, Greece, Mexico, Spain, Turkey, and Italy. The brand was founded in 2016 by three friends who love travel, the good life, and appreciating quality in detail. The Tripwix team has been providing high-end rental services to discerning clients from around the world for over five years.

During their travels, the friends discovered that online luxury home rentals fall far short of expectations. Discrepancies between pictures and reality have led to disappointments, and the lack of standards has made travel unpredictable and full of unpleasant surprises.

The friends decided that they would dedicate themselves to finding interesting locations to offer sophisticated travelers more than just a place to stay. They created an international team of experienced curators who find the best homes around the world, scrutinize them, and add only those that meet Tripwix's high standards to their portfolio.

The experts learn in detail about their client's interests, expectations, and lifestyles. Knowing the needs of their clients, Tripwix experts are able to suggest appropriate locations. And when clients arrive at their chosen location, local Tripwix ambassadors provide comprehensive concierge services and personalized immersive experiences.

Acetaia Del Cristo

Best Luxury Balsamic Vinegar in the World

Acetaia Del Cristo is a magnificent traditional balsamic vinegar that tells an inspiring story. In their attics, there are several barrels that are certified and recognized since 1849, that belonged to Maria, the great-great-grandmother of the brand. Maria is a representative to whom the family's memories and passion for Balsamic Vinegar date back.

Eugenio Barbieri, who is part of the family, continued the tradition and devoted himself to the cultivation of the vines inherited by the farm, to obtain the finest quality from the single ingredient at the base of their recipe; cooked grape must. Fast forward a few years after a union of two families, the Balsamic heritage gave birth to the Acetaia, known as "Acetaia del Cristo." This is the most imperative and historical reality of Traditional Balsamic with its 2000 barrels dedicated to the highest quality product - "Traditional Balsamic Vinegar of Modena DOP."

Today, Daniele and Gilberto run the family business and personally take care of the operations of the entire production chain. They cultivate and use exclusive grapes from the organic vineyard, managing the maintenance of the 2000 barrels to the packing and marketing. They are committed to being ambassadors of traditional balsamic and bring their balsamic vinegar to the tables of famous and illustrious personalities all over the world.

The team allows their guests to book a guided tour where you can visit the Acetaia and be a part of the various stages of cooking where you can taste the authentic vinegar and buy it, which is a unique and special experience.

Best Luxury Water in Chile

Entirely family-run business Agua Mater was launched to provide the people of Magallanes with the highest quality of pure mineral water. This unique natural water originates in the heart of Patagonia in Chile, deep beneath the surface of the earth in a free aquifer composed of rock and sand that the advances and retreats of glaciers have created. This natural environment in the southernmost region of the world, which boasts some of the cleanest air in Latin America, is the perfect home for the highest quality of natural water.

The company is committed to bottling at source using a non-invasive extraction and bottling line to demonstrate their solid environmentally-friendly production process. All water undergoes rigorous quality tests to guarantee that it is not altered too much from the purity of its origins. This exceptional purity means that Agua Mater only needs simple microfiltration before bottling with no need for cleaning, industrial processing, sterilization, or additives.

Agua Mater's purity is its trademark. The slight minerality of calcium and silica gives the water a light flavor and smooth texture on the palate. The unique neutral pH also gives Agua Mater a clean, subtle taste. The combination of these properties makes for a unique product that is ethically produced and allows the region's people to enjoy a balanced, healthy, and refreshing mineral water brand.

Parfums d'Elmar

Category:
Best Luxury Niche Perfume Brand in Switzerland

Parfums d'Elmar was born in 2017 of the desire to set new standards in the field of luxury artisanal perfumery.

After a very successful launch, in 2022 the line was completely reworked and significantly enhanced. However, the brand's luxurious presence and its ethos of making an unusually large investment in superior fragrance ingredients remains unchanged.

With a perfume oil concentration of 35 percent – known as “Quintessence de Parfum” – the fragrances leave a very long-lasting impression on the skin.

Parfums d'Elmar is a response to the desire for opulent luxury. Heavy hand-polished crystal flacons, semi-transparent colored glass and massive gold-plated zamac caps embody the emotions triggered by the fragrances: exotic opulence meets Western complexity. The names of most of the perfumes in the line have Hawaiian origins and spirit the wearer away into a dream world in which the individual's unique scent signature comes into play.

Master perfumers, including Chris Maurice and Mark Buxton, have created fragrances jewels with a virtually unequalled charisma and complexity.

It is a perfect collection for lovers of a strong, self-confident presence!

Richman Luxury

Best Luxury Watch Winders in Singapore

Luxury watch enthusiasts are some of the most fanatical collectors. They tend to their watches with great care, search persistently for the finest materials and participate in watch culture with great enthusiasm. It is of little wonder then that a well-established business like Richman Luxury would find a captive niche audience in Singapore, propelling it to high esteem among Singaporean watch lovers.

Richman Luxury is a retail store in Singapore that specializes in watch winding for automatic watches. It is Singapore’s leading brand when it comes to watch winder technology, associated with outstanding service professionalism. Richman Luxury also sells cigar boxes, glass boxes, high-grade safes, leather watch box and other high-end products, deepening its association with luxury lovers.

The business was founded in 2015 by Jin Goh, an avid watch lover who is especially passionate about automatic watches. “There is nothing more elegant, more mechanical and more beautiful than an automatic watch. I’ve been curious about them from a very young age, so to be able to work with the thing I love and admire most is a great privilege for me,” says Goh.

High-end automatic watches are self-winding by means of a movable weight that swings or rotates while being worn and drives the winding mechanism inside the watch. Watch winders by Richman Luxury move the watch around when it is not being worn on the wrist, mimicking the movements of a person and keeping the watch uncharged and keeping the self-winding mechanism running.

Richman Luxury makes award-winning modular stackable watch winders. One of its top winders uses Japanese mechanism. By using one adapter, the winder can power up to 12 units of watch winders, making it possible for watch collectors to build their very own blocks collection of watch winders.

The Richman Luxury team delivers ultimate satisfaction to its customers by using the highest quality materials in the manufacturing of watch winders, such as carbon, stainless steel, glass and African Bubinga hardwood. The velvety suede, with which the interior of the winders is finished, is friendly to leather, ceramic, and stainless steel bracelets. The devices use super-quiet mechanisms that provide three alternating direction modes of rotation for recharging luxury timepieces.

Best Luxury Restaurant in Greece

Perched on the caldera cliffs in Imerovigli and heading for its eighth season in 2023, The Athenian House heading is internationally acclaimed as the favorite dining destination on the island of Santorini.

Jet-set foodies from all over the world book months in advance to enjoy the most romantic sunset on Skaros rock, along with sophisticated signature cocktails by famous Alexandros Gkikopoulos or a wine-tasting journey from a large collection of rare vintage Santorini wines selected by oenologist Panos Zoumboulis.

The Cave by Chef Ryan Clift

Category:

Best Luxury Fine Dining Experience in Indonesia

The cave by Chef Ryan Clift at The edge Bali is the latest addition to Indonesia's luxury fine-dining scene, offering guests a one-of-a-kind subterranean dining experience to remember. Having opened its doors in May 2022 at the luxurious The edge Bali, The cave by Chef Ryan Clift has already turned the tourist havens culinary scene on its head with its exceptional menu that makes a meal at this new restaurant simply unforgettable.

Seating at The cave by Chef Ryan Clift is limited to just 22 diners per sitting, which makes securing a table at this restaurant an exclusive affair. If you are successful, you are in for a sublime experience in a setting that is as impressive as the seven-course menu. The first of the seven courses is a four-part snack.

With two options to choose from (Classic or Vegetarian), guests can look forward to delicacies such as a savoury doughnut – a lightly fried brioche injected with mushroom puree, topped with a pickled mushroom and a slice of jellied mushroom dusted with white truffle dust, Hokkaido scallop, Tajima wagyu for meat eaters or nori cracker and carrot tartar on the non-meat menu, as well as other unique courses on their menu. All dishes are rich in Umami, low in fat and gluten, and finalized to perfection in the live kitchen in the cave.

Believed to be over 25,000 years old, the home of The cave by Chef Ryan Clift was discovered over six metres below ground in 2013. It was initially conserved and restricted to the public, but thanks to Clift's history-making concept, guests are now welcome at the cave restaurant – the first of its kind in Indonesia.
